SYNOPSIS.

THE CITY. Judge Wellborn issues  
 injunction against Wigmore & Sons,  
 trying up their stock and money.  
 Judge Coughlin's social club pro-  
 prietors for contempt of court.  
 Fight in neighborhood over erection of  
 house by negroes. Young man chased  
 across the continent for taking 75  
 cents from till. Council or Labor  
 union. Green robbed in his  
 bed. Prominent oil men sued for  
 shooting alleged trespasser. Judge  
 Smith gives assualt of Chinaman  
 severe sentence. Local capture of  
 highwayman. Mrs. Freeman loses  
 valuable diamonds. Compton man  
 held up.

SOUTHERN CALIFORNIA. Steel  
 purchased for \$500,000 Hotel Green An-  
 nex in Pasadena. Pacific Electric  
 street car line to San Pedro. Driving  
 Harbor. Leon Clyde Shadel, Throop  
 student, fatally shot. Archdeaconry  
 meeting in Covina. Iowa banker to  
 build mansion near Alhambra. San  
 Dimas Farmers' Club to have a home.  
 Crowded battery and engine. Humbert  
 Good-street start in Riverside.  
 Pushing the big hole at Chatsworth  
 Park. District Attorney going into  
 Lloyd case in San Bernardino.

PACIFIC SLOPE. San José likely  
 to fail in effort to become capital.  
 Rally attacks integrity of Senators.  
 Referendum proposal defeated. Glen  
 Ellen investigation. One convict  
 killed and several crippled by use of  
 strait-jacket. San Francisco. Supreme Court  
 reverses police judge. Miller's de-  
 fence. William Randolph kills Walter  
 Edgerly. Woman burned to death.  
 War of Chinese, long.

GENERAL EASTERN. Miners  
 Union declared worse than Mollie Ma-  
 guires. Strikers bombard women  
 with eggs. Smoot not worrying over  
 fight against him. Kansas women  
 suffragists defeated. Atlas. Block in  
 Salt Lake burned. Loyal art collec-  
 tion brings \$351,000. Murderer Young  
 collapses. Rock Island arsenal store-  
 house burned. Enormous extent of  
 life insurance frauds revealed by con-  
 fusion.

WASHINGTON. Department of  
 Commerce bill goes to President.  
 Alaskan boundary treaty ratified.  
 Debate on Statehood bill and Mormonism.  
 Conference over canal. Important  
 decision affecting court-martial.  
 Favorable report on Aldrich  
 banking law amendment. Ship of Na-  
 val constructors. Los Angeles' growth  
 shown in postal receipts. Loud likely  
 to be sent to Postal Congress.

SPORTING RECORD. Cooperative  
 turf concerns stop. Will stop  
 prize fighting in Oakland. New  
 York bench show open. Pittsburgh  
 Phil at Ingleside. Crescent City re-  
 sults.

FOREIGN. Guatemala declared in-  
 state of siege. Crown Prince of Sax-  
 on granted a divorce. Humbert  
 make first appearance in criminal  
 court in Paris. Morgan's name forged  
 to bills for \$115,000.

WOMAN SUFFRAGE DEFEAT.  
 TOPEKA (Kan.) Feb. 11.—The Kan-  
 sas Legislature today, contrary to ex-  
 pectations, finally ended the suffrage  
 of the women of Kansas to vote  
 for Presidential electors. The vote in  
 the House on the equal suffrage propo-  
 sition was 62 for and 51 against. Yes-  
 terday it was announced that enough  
 votes had been pledged to secure the  
 passage of the resolution.

## WASHINGTON.

**DECIDEDLY STRAINED.**

**Bitter Feeling Over Trust Story.**

**Senators and Representatives are Suspicious of One Another and the President.**

**Statehood Bill to Be Kept to the Front as a Bulwark Against Legislation.**

**St. Louis and Los Angeles Lead in Postal Receipts—Printing By Private Concern.**

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Feb. 11.—[Exclu-  
 sive Dispatch.] Confusion was  
 confounded may be said to de-  
 scribe the present conditions in Con-  
 gress. The publication of the story  
 received telegrams from Mr. Rockefeller  
 and the ill-concealed slur cast upon  
 Speaker Henderson, has caused most  
 bitter feeling to prevail at both ends  
 of the Capitol. A man who has been  
 closely watching the work of Congress  
 here for many years, said today that  
 decided strained; that Senators and Rep-  
 resentatives were suspicious of each  
 other, and many of them very bitter  
 in their feeling toward the President,  
 whom they hold responsible for the  
 publication of the Rockefeller story,  
 and the attack on Speaker Henderson.  
 It is almost impossible to get a Sen-  
 ator or Representative to talk on any  
 matter of legislation except the trust  
 question.

"To add to the general confusion,  
 Representative Littlefield is angry all  
 the time through. His friends say he  
 thinks he has been humiliated, and that  
 he deeply resents the attitude of the  
 President, who, it is said, told him yes-  
 terday that his bill stood no show of  
 passing. This is the President's  
 attitude toward the bill, and this  
 would not be a fair statement of the  
 President's attitude toward the bill.  
 Mr. Littlefield is a lawyer of ability  
 and has a large private practice. He  
 devoted many weeks of his time to  
 the bill, and he is now preparing his  
 anti-trust bill that passed the House  
 under a dissenting vote, and under  
 the circumstances, he feels that he has  
 been pretty badly treated. There is  
 every reason to believe that the de-  
 clare of the Statehood bill will con-  
 tinue practically until the end of the  
 present session. As one member put  
 it today:

"The plans of the men who are op-  
 posing anti-trust legislation have been  
 practically determined upon. They will  
 not vote against the pending  
 bill, but if by any means they can  
 induce the Democrats of the Sen-  
 ate to refuse to accept the compromise  
 on the Statehood bill they feel that  
 with the help of Senator Quay, whom  
 they feel will vote with them, they  
 can keep the Statehood bill before  
 the Senate until March. In other  
 words, they have determined to  
 take their chances on the President  
 for the election, and against him to  
 permit the publicity feature in the De-  
 partment of Commerce bill to become  
 a law."

Of course, it is possible that this  
 plan may be checked. Some of the  
 greatest lawyers in the country are  
 now here going over the pending anti-  
 trust bills, and a great deal depends  
 on their decision. It is not gener-  
 ally known, but it is true, however,  
 that several of these big trust lawyers  
 have been here continuously for sev-  
 eral weeks. J. Pierpont Morgan has  
 had a major part in the matter, keep-  
 ing an eye on trust legislation. Under  
 these circumstances the few days re-  
 maining of the present session are apt  
 to be both dramatic and exciting. All  
 sorts of combinations will be made,  
 and no one is able at this time to pre-  
 dict what the result will be. Certainly  
 the publication of the Rockefeller story  
 has not tended to clear the atmosphere.

**LOANS OF MONEY.**  
 ALDRICH BILL AMENDED.  
 (BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, Feb. 11.—The Senate  
 Committee on Finance today author-  
 ized a favorable report on the bill  
 recently introduced by Senator Aldrich  
 to permit the Secretary of the Treas-  
 ury to loan money to national banks  
 on other securities than government  
 bonds, and agreed to report with the  
 following amendment to section 1:  
 "The United States shall have a lien  
 on all assets of banks in which public  
 moneys are deposited from the time of  
 deposit for the repayment of the same  
 on demand of the Treasurer of the  
 United States; but the securities de-  
 posited with the Secretary of the  
 Treasury for the keeping of public  
 moneys shall be sold before the said  
 lien is enforced and the proceeds ap-  
 plied to the discharge of said lien to  
 the extent of the proceeds of the sale."  
 The bill also was so amended as to  
 make the securities of cities of 50,000  
 people good for loans. The limit in the  
 original bill was fixed at \$100,000.

**CASE OF JOHN SMITH.**  
 AFFECTS COURT-MARTIALS.  
 (BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, Feb. 11.—The Court  
 of Claims has rendered a decision of  
 far-reaching importance to the naval  
 establishment. It has decided that the  
 United States Supreme Court, to which  
 an appeal has been taken, the decision  
 will affect every court-martial case  
 tried during the past forty years in

which the sentence involved a loss of  
 pay.

The case decided by the court was  
 that of John Smith, a fireman in the  
 navy, who was tried and convicted by  
 court-martial on the charge of refus-  
 ing to obey a proper order from his  
 superior officer, and sentenced to one  
 year's imprisonment, with loss of pay  
 during confinement. The court gave  
 judgment in his favor for the full  
 amount of pay claimed, amounting to  
 about \$376. The decision was based on  
 the broad ground that the accused had  
 not been furnished with a copy of the  
 charges and specifications which he  
 was to be tried, "at the time he was  
 put under arrest," according to the re-  
 quirements of the naval regulations.

It is represented by the law officers  
 of the Navy Department that the de-  
 cision reverses the practice of the navy  
 for the past forty years, and it is  
 moreover, impossible of enforcement in  
 the naval service under existing con-  
 ditions. Under the practice that has  
 always prevailed in the Navy Depart-  
 ment, the charges and specifications  
 are given to the accused before he is  
 tried before the general court-martial  
 are not drawn up, and presented to  
 the accused after he has been placed  
 under arrest, and the case against him  
 is ready for trial.

**CHINESE AGITATORS ACTIVE.**  
 SOLICITING SUBSCRIPTIONS.  
 (BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, Feb. 11.—Advice  
 received at the Chinese legation here  
 tells of the activity in San Francisco,  
 New York and other cities in this  
 country, of Chinese agitators calling  
 themselves "reformers." They are  
 said to be soliciting subscriptions from  
 Chinese for the importation of arms  
 into China, to be used by the Pao  
 Wong, as their society is known.

It is difficult to secure any definite  
 information about these agents, but if  
 they can be run down, it is not im-  
 probable that the Chinese government  
 will make representations to the  
 United States in the matter. The Pao  
 Wong Society, it is thought, may be  
 responsible for much of the unrest that  
 is reported from China, and which is  
 causing much apprehension among  
 the powers.

In the peace protocol, the Chinese  
 government pledges itself to prevent  
 the importation of arms, but the of-  
 ficials declare that they have no con-  
 trol over agitators in this country, and  
 must look to the United States and  
 the powers to do their part in prevent-  
 ing the exportation of arms.

**COMPLIMENT TO LOUD.**  
 PLACE WANTED FOR HIM.  
 (BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, Feb. 11.—Represen-  
 tative Loud of California, who got  
 beaten for reelection last fall, has  
 been an unusual compliment paid him  
 when his fellow-members upon the  
 House on Postoffice and Post  
 Roads called in a body upon the  
 President, and asked that Mr. Loud  
 be nominated as delegate for the  
 United States to the International Post-  
 al Congress to be held in Rome next  
 June.

Mr. Loud is chairman of the House  
 Committee on Postoffice and Post  
 Roads, and this action upon the part  
 of men who have served under him  
 and fought with him against him for  
 several years is considered a high  
 compliment to him. It is known that  
 some time ago, the President decided  
 to appoint Mr. Loud as delegate to  
 this congress, if no decided objection  
 to the appointment appeared, and with  
 the indorsement that Mr. Loud got to-  
 day, there is very little doubt but that  
 he will get the place.

**INQUIRY INTO PRINTING.**  
 HOUSE COMMITTEE'S HEARING.  
 (BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, Feb. 11.—A hear-  
 ing was given today by the House  
 Committee on Printing on the resolu-  
 tion introduced by Representative  
 Henry C. Smith of Michigan, for an  
 investigation into the matter of the  
 printing of the messages and docu-  
 ments of the President by a private  
 concern.

Mr. Smith made an argument in  
 favor of the resolution, and sub-  
 mitted a statement, in which he de-  
 clared that the matter contained in  
 the book is not legally copyrighted.  
 He argued that Congress should so de-  
 crease. He said that the language of  
 the Federal statutes forbidding the  
 copyrighting of government publica-  
 tions is strong enough to warrant in-  
 terference by the proper authorities.

He further said that the government  
 should republish the papers for pub-  
 lic distribution. No action was taken  
 by the committee.

**DEPARTMENT OF COMMERCE.**  
 TRANSFER OF BUREAUS.  
 (BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, Feb. 11.—The De-  
 partment of Commerce bill passed by  
 Congress provides for another cabinet  
 officer, and places under his control  
 the following bureaus, most of them  
 by transfer from other departments:  
 Bureau of Corporations, Bureau of  
 Labor, the lighthouse and steamboat  
 inspection service, the bureau of Na-  
 vigation and of Standards, Coast and  
 Geodetic Survey, the Immigration and  
 Service and the Shipping Commission,  
 Bureau of Statistics of the Treasury  
 Department, Bureau of Foreign Com-  
 merce, the State Department, Census  
 Bureau and Fish Commission.

By the terms of what is known as  
 the Nelson amendment, authority and  
 power is given to the new Bureau of  
 Corporations to require specified re-  
 turns from large corporations, and pro-  
 vision is made for publicity as to their  
 affairs to a certain extent.

**NAVAL CONSTRUCTION CRIPPLED.**  
 SHORTAGE OF OFFICERS.  
 (BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, Feb. 11.—The Naval  
 Construction Corps has been still  
 further crippled by the breaking down  
 of Constructor Hahn, in charge of im-  
 portant work at the navy yards at  
 Mare Island, Cal., and the resignation  
 of Constructor John G. Tawney, su-  
 perintendent of the government work  
 at the Union Iron Works, San Fran-  
 cisco. No action has been taken on

**UNIONISTS SAY NO CARMEN'S UNION.**

**RESIST INSTALLING "TOTE" ON STREET LINES.**

**Men Can Join "Amalgamated" if They Choose, But They Can't Work for It—Heavy Crossings and New Rails to Be Put Down at Once.**

Mr. E. Huntington has stated that he will not submit to labor union tactics, and that the Amalgamated Association of Street Railway Employees will not be allowed to install a "tote" on the street lines. He stated that the Amalgamated Association is a union of men who are not allowed to work for the street railway company, and that the company is not allowed to employ men who are not members of the Amalgamated Association. He stated that the company is not allowed to employ men who are not members of the Amalgamated Association, and that the company is not allowed to employ men who are not members of the Amalgamated Association.

**HANNA ENTERTAINS DOZENS.**

WASHINGTON, Feb. 11.—Mrs. Hanna entertained a large party at the Arlington Hotel last night. The party consisted of about 100 guests, including many of the prominent people of the city. The entertainment was given in the ballroom of the hotel, and was a most successful one. The guests were entertained by a large orchestra, and the evening was spent in dancing and socializing.

**JANUARY CIRCULATION THE TIMES.**

**THE AIR-BRAKE LAW.**

The Washington correspondent of the New York Herald says that a bill to prevent a consideration in Congress of the bill re-enacting the law regarding the use of air brakes on freight trains. This law has been practically nullified by a decision of the United States Court of Appeals and the railroad companies of the country have brought forward another proposition which will put the use of automatic air brakes into effect so that it cannot be questioned. The railroad companies contend that the passage of the bill will work a hardship on them, while the employees say that such a law is necessary for the protection of life and limb.

**BIG BLAZE IN SALT LAKE.**

SALT LAKE (Utah) Feb. 11.—Fire, that started in the Altus Block, a large fire-story office building, located on South Second street, and in the heart of the business section, at 2:20 this morning, completely gutted that building, spread to the Central Block, leaving that structure a wreck and did other damage, but still bringing the total loss close to \$275,000. There are some indications that the fire was of incendiary origin. The firemen, however, believe it was started by some one carelessly dropping a cigar or cigarette stump in some debris near the elevator shaft. Two firemen were slightly injured.

**RAILWAY NOTES.**

W. D. Huntington, Pacific Coast agent of the Southern Railway, has been named agent of the Denver and Rio Grande Railway from San Francisco.

The Los Angeles Railway Company has been ordered to pay \$100,000 in damages for the loss of the Pacific Coast agent of the Southern Railway, who was killed by a train of the company's system. The court has ordered the company to pay the damages, and the company has agreed to do so.

The court has ordered the company to pay the damages, and the company has agreed to do so.

We always have in stock Infants' plain and embroidered dresses, petticoats, wrappers and socks, knitted booties, soft soled shoes, handmade caps and everything pertaining to Infants' wear.

Children's Department, Second Floor.

**Coulter Dry Goods Co.**

Spring selling never started so briskly. Lucky we were forehanded in anticipating your wants.

**Wash Goods.**

Never have we sold so many fine wash goods thus early in the season. Never before had so many to sell; never such pretty styles or worthy values as now. Note the following:

Handsome Wash Cheviots in vesting patterns that are so popular for waists—all the rage in the East; new figures, new colors; 75c a yard.

Another new lot—mercerized Basket Cheviots in beautiful Scotch stripes—the hit of the season. These are only 85c a yard.

Dandies at a dollar—Shepherd Checks in new Cheviot Waistings; beautifully embroidered blue or green dots; also maitland and broche effects—highly mercoized.

**Fancy Goods.**

Let big bargains in little things suggest still greater values in the heavier lines. Take notions for instance:

Hose Supporters—standard makes, sorts that have satin belts; made of good grade silk elastic; all colors and sizes, usually 75c; on sale at 50c.

Another special is a number of pieces plain colored Cheviot, Mousseline de Soie and Liberty silk; regularly 75c to \$1.00 a yard; on sale this morning at 50 cents.

**Hdkfs.—Gloves.**

For special selling today and tomorrow; women's all-linen unlaundered Handkerchiefs; quality regularly sold at 20 cents; in the sale at 15c each, or 8 for a dollar—which is quite exceptional.

Kid Glove specials: two lines of Two-dollar gloves at a dollar; all of our \$1.35 gloves at a dollar; all colors, fitted, and sold with our usual guarantee. Sale starts this morning.

**Linen Dept.**

Let's get away from "Every-day Linens" for a little while. Plenty of "Out-of-the-ordinary" lines here to talk about—particularly a number of pretty damask cloths; just right for serving teas, luncheons, etc.

Here's a lot—Lunch Cloths of fine satin damask, beautiful designs and border effects, two sizes, 14x21 inches, and 17x27 inches; cloths regularly sold at \$1.50 and \$1.75; choice for 90 cents.

Same as above, size 36x36 inches, regularly sold at \$2.50 and \$2.75; as a flyer for a few days we make the price \$1.85 only.

Lunch and Tea Cloths heretofore \$2.85 and up to \$3.25, measuring 44x44 inches, are to go in the sale at \$2.15 for choice.

Still larger cloths—right for light suppers and Valentine parties—50 and 54-inch sizes; usually sold \$4.50 to \$5.00; on sale today at \$2.85. Think of it!

**Women's Garments.**

Only way to keep posted on the daily doings in our Ready-to-wear Department is to pay frequent visits. News makes fast again as we can print it.

New Wash Waists are meeting with a welcome these early spring days. There are plenty here for all comers, but it isn't safe to wait—not if you want the prettiest. This applies particularly to the \$1.50 black and white Cheviot Waists we show today.

Some of the waists referred to above have white pique collars and double fancy bows attached; another lot is of fancy madras, with soft stocks and ties; also a dollar-and-a-half.

Sateen Petticoats—a number of broken lines; four to six-dollar sellers ordinarily; offered today, and tomorrow, if any are left, at Three-fifty.

**COULTER DRY GOODS COMPANY,**

317-325 SOUTH BROADWAY, LOS ANGELES, CAL.

**CANDLESTICKS**

If you are interested in rich table furnishings, you should surely have one or more of these for your. Candlesticks from \$1.00 to \$10.00 each. Shades for same, 25c to \$2.00 each.

**CANDELABRA**

Hotels, lodgings, houses.

A dark, vertical, textured surface, possibly a book cover or a piece of fabric, showing a mottled pattern of dark and light gray. The texture is grainy and uneven, with some lighter patches and darker streaks. The overall appearance is that of a worn or aged material.

## BROOKS MAY GET RELIEF.

Council Has Temporary Plan Under Consideration.

Race Meet Will Be Possible if It Goes Through.

No Action to Be Taken if There is Chance of Re-entry of Black Outfit.

Pool selling at Agricultural Park during the contemplated race meet will be permitted if it can be done without causing the permanent re-entry of Black's poolrooms into the city.

This much was determined at a meeting of the committee of the whole of the Council last night. At three o'clock the Councilmen, all of whom were present at the executive meeting in the committee room at the City Hall, discussed the pool-selling ordinance and touched lightly on the social evil.

They had before them three petitions—one requesting that a modification be made of the pool-selling ordinance, permitting pools to be sold at the Agricultural Park race meet, another from various interested persons asking that the social evil be curbed, and another asking that the zone of liquor and restaurant liquor licenses be the same.

The only progress made was with the race-track matter, the social evil being considered too weighty for hasty action, and being passed to Chief Elton, who was in attendance, for such recommendation as he might see fit to make, while it was found that there was nothing necessary in the matter of the license zone. The restaurant liquor and liquor-selling districts are the same, and no change is considered necessary.

There was opposition to the reopening of the pool-selling question, principally from Councilman McAleer, it is said, who objected strenuously to any concession being made to J. W. Brooks in the matter of selling of pools at the race.

The prevailing sentiment among the members of the Council was that an injustice had been worked on Brooks by the passage of the ordinance making the prohibition of pool selling operative at once. It was thought that an snap judgment had been taken on the racing man, and that something should be done, if possible, to save him from the loss that will fall to him if he is not permitted to allow the selling of pools at the track at the projected races.

That an exception should have been made in his case for this one time was the prevailing opinion at last night's meeting, although every Councilman who held this opinion declared positively that he would not make this concession if it would afford a loophole for the return of Black and his poolrooms to the city.

The only question that bothered the Councilmen was how to extend any privilege to Brooks. It was thought that temporary suspension might be made of the ordinance with respect to the thirty-day race meet, and it is to that end that the majority of the Council now will work. Further consideration of the matter will be had at another executive session to be held Saturday evening, and it is expected that a measure favorable to Brooks will be introduced at the regular meeting next Monday.

"Brooks was not given a show," said one member of the Council after the meeting. "An ordinance had been prepared and pigeon-holed by the former Council prohibiting pool selling, but containing a clause permitting the selling of pools for thirty days at the Agricultural Park race meet. With this understanding Mr. Brooks made his preparations and expended considerable money. Then the clause was struck out prior to the meeting. The matter was fully understood by all the members, and Brooks was left high in the air. No one wants Black and his infernal poolrooms to return to the city, and that will not be permitted under any circumstances, even if Mr. Brooks has to suffer. It is hoped that a way can be found whereby pools can be sold for thirty days at the race, after which the ordinance again will become as tight in its provisions as it is at present. It is not the intention to make it possible to sell pools every year at the race. The measure suggested is only temporary, and will cease at the close of this year's meet, provided the arrangement is made at all."

FOR OBSERVING LENT.

All Denominations to Unite for More General Devotions During the Coming Lenten Season.

One of the signs of the times in the religious world is the growing observance of Lent among all denominations of Christians. At one time only the Anglican and the Roman church paid any attention to the Lenten season, but the coming Lent, which begins on the 25th of this month, promises to be a period of active religious revival all over the United States. A first step toward the revival of the Lenten season has been taken by the National Central Committee of the Protestant churches, and is signed by such well-known ministers as the Rev. Francis E. Clark, D.D., of Boston; the Rev. Robert S. McArthur, D.D., of New York; the Rev. A. C. Dixon, D.D., of Boston; the Rev. Louis S. Banks, D.D., with others equally distinguished. Such laymen as John Wanamaker, John H. Converse, John Willis Baez, John R. Mott, Gen. O. O. Howard, Mrs. Margaret Bottomore, national president of the King's Daughters, have signed the appeal, which says:

"The Lenten season has of late years been almost entirely forgotten. It is owing to the special emphasis placed upon it by some branches of the church, and the resulting temporary waning of the life of the wilderness and of the world, that it has been so long neglected. It is time to recognize it in all branches of the church, would seem to make it a most opportune time for the quickening of Christians for spiritual life and service."

"We therefore respectfully suggest a plan for making the most of the Lenten opportunity this year, for the furtherance of the spiritual advance for which the present crisis so urgently calls."

"Would not every minister or leader receiving this appeal do well to prepare for and initiate this movement by making February 23, 1902, known as 'Ash Wednesday,' a special day of humiliation and prayer? Let him invite his people to join in confession and in humiliation, in view of past sins and shortcomings, and in supplication and intercession before God."

Wigs and Toupees

on the basis of St. Luke, xi, 1-13, for the blessings of which the churches stand in such perishing need.

"That the praying may not be of that general and indistinct kind that never brings answer, we enumerate some of the things for which there is pressing call for prayer:

"(1.) For a return to absolute faith in the Bible, as the inspired, authoritative word of God, and as furnishing the churches with the only credentials and message; and for an immediate revival of earnest and systematic study of that word, in order to learn what God would have us do in the present conditions."

"(2.) For a quickened sense of the sinfulness of sin, and of man's lost and hopeless condition as a sinner in time and eternity."

"(3.) For a new vision of the greatness and reaching effect of the atonement of Jesus Christ wrought on the cross, and to be universally proclaimed as the only hope for lost man."

"(4.) For an overwhelming sense of the obligations and responsibility, on the part of every professed follower of Christ, for witnessing to the lost soul nearest him—and to all lost souls he can reach—of the dying love and message of Christ, and of urging the immediate acceptance of salvation by His blood."

"(5.) For an immediate entrance of all Christians upon a campaign of personal work in seeking and winning lost souls, 'beginning at Jerusalem'—at home—and reaching the work of the 'outermost parts of the earth.'"

"(6.) For a mighty outpouring of, and endowment with, the holy spirit, that the church throughout the entire nation may, by His enlightening influence, be brought to understand these life and death truths, and be guided in meeting these awful and inescapable responsibilities."

"We think it would be well that on the day the church doors should be thrown open from morning until the close of the evening service, and that the Christian community be urged to come in silence to the house of God, at any convenient hour, and there in genuine travail of soul, pray for a national and universal revival of the religion of Christ."

"We beg to suggest that, following the day of prayer, and continuing until April 10, every Christian minister, in his own church or in cooperation with the ministers of neighboring sister churches, undertake the work of personal positive evangelism among the unsaved. Let evangelistic sermons be preached, let special gospel music be sung, let there be discreet and enterprising advertising done through the public press, circulars, cards and billboards, so that the attention of the entire church shall be focused upon the supreme work of winning men to Christ. Let the gospel work be carried out into the cottages and shops and halls of the parishes, everywhere, until the hearty personal offer of Christ as Saviour, and the joyful load of merchandise was taken from the store, kept over night in the barns of the truck company, and delivered yesterday morning to the Southern Pacific company for shipment East."

In addition it is affirmed in the petition that another load was taken yesterday, and that the manager of the truck company refused other orders from the petitioners, giving as a reason the pressure of business at this store."

George H. Wigmore was again requested to be present at yesterday morning's meeting of the creditors, but did not come, although represented by the firm's attorney, M. L. Graft.

The petition states that, since it is the custom for settlement to be made on the 10th of each month, in all probability considerable money is still coming into the Wigmore company, and in view of their present course it is absolutely necessary for a receiver to be appointed for the preservation of the estate."

L. M. Davenport is the petitioner, and he is joined by others as follows: R. L. Craig & Co., Baker Iron Works, American Steel and Wire Company, Elm Hardware and Metal Company, Percival Iron Company, Levi Booth, C. Ducommun, Machinery and Electrical Company, Standard Woodenware Company, Berkeley-Stetson-Preston Company, Standard Iron Company, Blake, Moffit & Towne, P. Lazarus & Co., Baker's Sinks, Los Angeles Manufacturing Company, Westinghouse Electrical and Manufacturing Company, Woodhill & Hulse, Ketcher & Reynolds Co., Curtis, Newhall & Co., Keystone Iron Works, Colorado Fuel and Iron Company, California Hardware Company, W. F. Palmer & Co.

Earlier in the day involuntary bankruptcy proceedings were filed against the distressed concern. The petitioners in this proceeding were the Colorado Fuel and Iron Company, the California Hardware Company and L. M. Davenport, these three firms retaining Dunning & Craig as their attorneys. While nearly all of the local hardware dealers are somewhat involved in the unexpected crash of this old and supposedly reliable firm, the heaviest loss is supposed to rest on firms in the North and East.

Saved His Money Afterward.

"I worked for John D. Rockefeller once," said a well-known landscape gardener of this city. "One morning I was out in the grounds doing some work among the plants and flowers, and as I worked I smoked. Pretty soon I noticed a man in a suit and hat, when he came up to where I was, said in a quiet way: 'I never had any money to burn.'"

"I did not trouble for a second, and he stood there looking at me. 'I have managed to put away a few dollars,' he continued, 'but I never had any money to burn.'"

"It came to me all at once what he meant, and I threw the cigar away. Next morning when I came around to work I wasn't smoking. He came up with a smile on his face and said: 'I have managed to put away a few dollars, but I never had any money to burn.'"

"I have managed to put away a few dollars, but I never had any money to burn."—[Columbus State Journal.]

Ghost or Gasoline?

Lady Macbeth was walking in her sleep. "What do you suppose makes her do it?" inquired the physician. "Perhaps," she thinks, "her auto is broken down and she has to walk home," replied Lady Viola.

However, subsequent events pointed to uncatarrh ghost, rather than her gasoline one, as the cause of her trouble.—[New York Herald.]

EMBEZZLER ELDER SENTENCED.

LONDON, Feb. 11.—G. H. Elder, the self-confessed embezzler of \$75,000 from his employers, Brown, Shipley & Co., the American bankers, was today sentenced to eighteen months' imprisonment at hard labor.

Is represented in this market by G. H. Mum's extra dry champagne, whose magnificent quality and natural dryness is due to its unique position, manifested by 125,119 cases imported in 1902, being 407,304 bottles more than any other brand.—FAD.

## SHARP FIRE ON WIGMORES.

Injunction Sued Out by the Local Creditors.

Judge Wellborn Issues Order to Tie Up Company.

Charge Made That Goods Have Been Spilled Away From the Store.

Court proceedings have been begun against the John Wigmore & Sons Co. by the united local creditors, aggregating twenty-five firms.

About 5 o'clock yesterday afternoon a petition for an injunction was filed with United States Judge Wellborn, praying for the immediate appointment of a receiver and the legal stoppage of all disbursements of money or property belonging to the concern except through the receiver's hands.

Judge Wellborn immediately issued the injunction, restraining the company from all business or giving out of money or property until further order of the court, and set the hearing for the appointment of a receiver for 10:30 o'clock this morning.

The document then states that the creditors, represented by Dunning & Craig, say that the Wigmore have violated their own voluntary proposition, made in their letter to their creditors, to stop all business on Feb. 7. A paragraph of this letter is as follows: "We assure you that we will not permit any one creditor to get any advantage of the others, but the assets will be kept intact for the benefit of all."

The document then states that the firm has shown partiality to certain creditors, and that they allowed the Lloyd Scofield Iron Company to haul away goods to the value of \$1300, probably sufficient to satisfy their claims. It further affirms that on Tuesday afternoon the first meeting of the creditors was held, that Secretary Mudgett of the Wholesale Board of Trade went in person to the place of business of the Wigmore and requested the presence of the secretary, George H. Wigmore, who refused to come. While this meeting was in progress, it is alleged, a load of merchandise was taken from the store, kept over night in the barns of the truck company, and delivered yesterday morning to the Southern Pacific company for shipment East."

In addition it is affirmed in the petition that another load was taken yesterday, and that the manager of the truck company refused other orders from the petitioners, giving as a reason the pressure of business at this store."

George H. Wigmore was again requested to be present at yesterday morning's meeting of the creditors, but did not come, although represented by the firm's attorney, M. L. Graft.

The petition states that, since it is the custom for settlement to be made on the 10th of each month, in all probability considerable money is still coming into the Wigmore company, and in view of their present course it is absolutely necessary for a receiver to be appointed for the preservation of the estate."

L. M. Davenport is the petitioner, and he is joined by others as follows: R. L. Craig & Co., Baker Iron Works, American Steel and Wire Company, Elm Hardware and Metal Company, Percival Iron Company, Levi Booth, C. Ducommun, Machinery and Electrical Company, Standard Woodenware Company, Berkeley-Stetson-Preston Company, Standard Iron Company, Blake, Moffit & Towne, P. Lazarus & Co., Baker's Sinks, Los Angeles Manufacturing Company, Westinghouse Electrical and Manufacturing Company, Woodhill & Hulse, Ketcher & Reynolds Co., Curtis, Newhall & Co., Keystone Iron Works, Colorado Fuel and Iron Company, California Hardware Company, W. F. Palmer & Co.

Earlier in the day involuntary bankruptcy proceedings were filed against the distressed concern. The petitioners in this proceeding were the Colorado Fuel and Iron Company, the California Hardware Company and L. M. Davenport, these three firms retaining Dunning & Craig as their attorneys. While nearly all of the local hardware dealers are somewhat involved in the unexpected crash of this old and supposedly reliable firm, the heaviest loss is supposed to rest on firms in the North and East.

Saved His Money Afterward.

"I worked for John D. Rockefeller once," said a well-known landscape gardener of this city. "One morning I was out in the grounds doing some work among the plants and flowers, and as I worked I smoked. Pretty soon I noticed a man in a suit and hat, when he came up to where I was, said in a quiet way: 'I never had any money to burn.'"

"I did not trouble for a second, and he stood there looking at me. 'I have managed to put away a few dollars,' he continued, 'but I never had any money to burn.'"

"It came to me all at once what he meant, and I threw the cigar away. Next morning when I came around to work I wasn't smoking. He came up with a smile on his face and said: 'I have managed to put away a few dollars, but I never had any money to burn.'"

## CONGRESSMAN JOHN CRITCHER Endorses Pe-ru-na--Other Letters Reporting Cures.

Hon. John Critcher, ex-Member of Congress from Virginia, in a letter from Washington, D. C., says:

"I cheerfully recommend your *Peruna* to any one suffering with catarrh or nervousness. Having used it I am convinced it is a good tonic and a most efficacious remedy."—John Critcher.

**DURING WINTER SEASON**

DURING the winter season the onset of catarrh is often very sudden. It begins like an ordinary cold. It very rapidly fastens itself upon the organ attacked, whether it be the head, throat or lungs, and assumes a stubborn form of catarrh at once.

Upon the first appearance of what is known as a common cold everybody should immediately take warning and provide themselves with a bottle of *Peruna*. One bottle of *Peruna* will do more at the beginning of the attack than several bottles can do after the disease has become thoroughly established in the system.

**For Weak Men.**

**Keystone Pile Cure**

**MEN CURED In 3 Days.**

**NO-GON-NO THE NEW**

**PASTEUR PHARMACAL CO.**

**BLOOD POISON**

**DR. BULL'S COUGH SYRUP**

**DR. BULL'S COUGH SYRUP**

**DR. BULL'S COUGH SYRUP**

**DR. BULL'S COUGH SYRUP**

**DOCTORS PRESCRIBE IT.**

Whenever there is a case of cough, cold, bronchitis, croup, asthma, whooping cough, measles, hoarseness, or sore lungs in the family, and the doctor wishes to give the patient speedy relief and a positive cure, he prescribes the medicine that always cures—Dr. Bull's Cough Syrup.

**GROUP CURED.**

Croup attacks a child without warning and needs very prompt attention or it may prove serious, even fatal. If you notice any symptoms of croup, give baby a small dose of Dr. Bull's Cough Syrup. It will relieve it instantly and cure it in a night. No danger from choking after you have

given baby one or two doses. Every mother should keep a bottle of Dr. Bull's Cough Syrup in the house to be prepared for sudden attacks of croup. Thousands of mothers have received from grateful mothers, who say their babies' lives have been saved by Dr. Bull's Cough Syrup.

**One Bottle Cured Her Boy.**

Mrs. Mary Olson, of 330 Clifton Street, Brooklyn, N. Y., writes: "My little boy, three years old, was taken with croup, and I have this old remedy in the house I feel safe, and since it cured him I always keep a bottle in the house. My husband was also cured of a bad cold by Dr. Bull's Cough Syrup."

**Coughed Until His Nose Bled.**

Wm. H. Broadner, of Chrystie Street, New York City, writes: "I have had a cough ever since my childhood. It was so bad that blood would come from my nose, which would have no rest, so that I was often compelled to leave my work. I started to take Dr. Bull's Cough Syrup, and before the third bottle was finished my cough was entirely gone."

**Avoid Substitutes!**

A dealer who tries to sell you a cheap substitute for Dr. Bull's COUGH SYRUP does so to increase his own profit at the risk of your health. If he will sell you cheap imitations and bogus goods, he will not hesitate to sell you impure drugs. He knows himself that there is no remedy in the world so good as Dr. Bull's Cough Syrup.

**A. G. MEYER & CO., SOLE MANUFACTURERS, BALTIMORE, MD.**

**PE-RU-NA CURES CATARRH.**

*Peruna* cures the catarrh wherever located. *Peruna* is not a guess nor an experiment—it is an absolute, scientific certainty. *Peruna* has no substitutes—no imitations. Just use *Peruna*.

Hon. Philip B. Thompson, Jr., Member of Congress from Kentucky, in a recent letter has the following to say of the national catarrh remedy, *Peruna*. The letter is written at Washington, D. C., and reads as follows:

"My friends have used your remedy, *Peruna*, and I take pleasure in testifying to the merits of your medicine. Besides being one of the very best, it is a good, substantial, catarrh remedy."—Philip B. Thompson, Jr.

Mrs. W. E. Grissom, of Henry, Ellis county, Texas, writes:

"I took *Peruna* faithfully over two months, and the result is a thoroughly renovated system and a strong, buoyant feeling, to say nothing of a cure of the chronic catarrh. Therefore I shall avail myself of every opportunity to speak of *Peruna* as a catarrh cure."—Mrs. W. E. Grissom.

**Peruna a Family Remedy**

Mr. William Pfeiffer writes from 900 Bank Street, Cincinnati, O., as follows: Dr. S. S. Hartman, Columbus, O., has written: "Coming to the fact that I have been troubled with catarrh and was cured by your medicine, (*Peruna*), I cannot express my thanks to you for the health I am now enjoying. My case of catarrh is one which has been in my system for years before I knew what was wrong. I was going from bad to worse, until tired of it, I went to an institute for treatment. The doctor in charge said my nose would have to be operated upon. Having no confidence in the operation he wanted to perform it at once began to take *Peruna*, which is our family remedy."

Also followed by directed in the book "Winter Catarrh," for which my mother sent, and found relief. Shortly after I suffered with a heavy cold, but recovered from that, and am now healthy. I am very grateful to you for the service your medicine has rendered me, and I recommend it as the best remedy for catarrh, as I am one who has been cured by your medicine."—William Pfeiffer, Jr.

Catarrh is a systematic disease, curable only by a systematic treatment. A remedy that cures catarrh must strike directly at the nerve centers. This is what *Peruna* does. *Peruna* immediately invigorates the nerve centers which give vitality to the mucous membranes. Then catarrh disappears; then it is permanently cured.

If you do not derive prompt and satisfactory results from the use of *Peruna*, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address: Dr. Hartman, President of The Harbison Sanitarium, Columbus, Ohio.

**Indigestion Causes Catarrh of the Stomach.**

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach, thus causing the glands

## THE PUBLIC SERVICE

## SUMMARY OF THE DAY.

Building Superintendent Krause stated yesterday that he will make a thorough inspection of the City Hall building, and see if there is any fault in construction which renders it unsafe.

Mayor Snyder has not yet decided on a Civil Service Commissioner, but several prominent citizens are mentioned for the place.

Faun Galbraith has sued the Sunset Telephone Company for damages because a "buzzer" went off in her car.

Hugh W. Bryson has been released on bail.

In the Police Court yesterday Osborne Godding was held for stealing a case of cigars.

Ollie Watkins is to answer to charge of horse stealing.

## AT THE CITY HALL.

## DOES CITY NEED NEW CITY BUILDING?

## MUNICIPAL BROWN-STONE FRONT UNDERGOING INSPECTION.

## Great Demand for More Room by Nearly All the Departments—Additions Contemplated for Health and Engineer's Offices—Radical Views Held by Officials.

Building Superintendent Julius W. Krause is making an examination of the City Hall, to ascertain what cause, if any, exists for the fear expressed by city officials that the building is not entirely safe. The floor in the City Engineer's office shakes to an extent that is readily perceptible every time any one walks across it. Cracks are appearing in the plastering in many of the offices. It has long been considered that the library floors are overloaded.

"I intend to make a careful investigation of this building, and report to the Council, if there is any danger," said Superintendent Krause yesterday. "Of course, it would be entirely possible to condemn the building, but it is comparatively new, and I do not now know of any reason why such action should be taken. I do believe that some additional pillars should be put in to steady the floors in the Engineer's office."

"There has been much talk about building an addition to the City Hall. I believe the tower should be taken down, and the material used in making the addition. For \$50,000, a suitable addition that would last the city for many years, could be built."

Some of the city officials believe that the best way to secure adequate accommodations for municipal departments, and the most economical way in the end, would be to condemn the City Hall building as unsafe, tear it down, and build a new City Hall covering the entire lot.

Additional arguments are unsatisfactory, and makeshift at best. Some regard the City Hall as unsafe, and others believe that it should be torn down to forestall some dread calamity.

There is a space 150 feet north of the City Hall which is available for extensions. At the rear of the hall is a space about 30 feet wide, and as long as the hall is wide, which is not used. Building that would cover the entire lot would be ample to accommodate all departments in a satisfactory manner.

Contractor John Hanlon built the present City Hall, under a contract dated October 21, 1917, and received for the building, \$1,000,000. The building was completed September 2, 1919.

Just now the City Engineer is clamoring for more room. It is almost impossible to get through the Engineer's office today, and the partitions have been changed so as to afford the maximum amount of room. In order to do the work incident to preparing plans and specifications for the outfall sewer, storm drains and bridges, City Engineer Stafford has appealed to the Council for more room. He says that it is absolutely necessary to have space for two more tables, and that space for three is needed. As the records have to be consulted, the room must be contiguous to the map vault in the Engineer's office.

"I believe this City Hall should be torn down, and a new one built," said City Engineer Stafford yesterday. "It has been found impossible to rent quarters for the Health Office, and it is proposed to build an addition to accommodate the department."

Conditions in the Public Library have been recognized by the directors at one time seriously considered renting rooms in the new Chamber of Commerce building, in which the newspaper files. Long ago the reading-room became too small to accommodate the patrons of the library, and this space is being encroached upon constantly.

The Street Superintendent wants more room. Quarters allotted to the Building Superintendent are regarded as ridiculous, and when the importance of the office in a rapidly-growing city is considered.

Several other departments are cramped for room. What will be the condition in ten years from today? Would it be wiser to build an entirely new City Hall, or to splice on additions from time to time?

## WHO WILL HE BE?

## CIVIL SERVICE COMMISSIONER.

"No, I can't tell you who I shall name as the fifth Civil Service Commissioner," said Mayor Snyder last night.

"As a matter of fact, I don't know myself," he added. "Before I take any action, I shall consult with Maj. H. T. Lee and other members of the Commission. No, that conference has not been held. For the present, I will not even state who are being considered for the place."

Nevertheless, rumor was very busy yesterday, with the names of two or three men who are known to subscribe to the principles of civil service reform, and whose apparent fitness for the place or whose inking of the Mayor's preference has caused them to be mentioned. W. A. Spaulding, H. S. McKee, Will A. Harris, Eugene Germain and H. W. Frank are all regarded as likely to receive the appointment.

Willoughby Rodman, of the law firm of Rodman and Garrett, is likewise mentioned for the place. The best information obtainable yesterday, indicates that Mr. Rodman's name has been suggested to the Mayor. Rodman is a man having the good of the civil service at heart, and whose preferences are likely to be consulted by the Chief Executive. It is known that Mr. Rodman is very highly esteemed by other members of the Commission, and one

## AT THE COURT HOUSE.

## BUZZ OF "HOWLER" IN HELLO GIRL'S EAR.

## OPERATOR BRINGS SUIT AGAINST TELEPHONE COMPANY.

Rich Oil Men Sued for Damages by Man Whose Claim They are Alleged to Have Jumped—Says They Shot Holes in Him.

Ungratified "85," who turned the "howler" into the sea-shell of Miss Fawn, the hello girl, has brought down two damage suits tumbling in a heap upon the telephone company.

Yesterday, Miss Fawn's mama, Mrs. Cassie E. Galbraith, began one damage suit for \$10,000 for what happened to the ear of Miss Fawn, and another for \$25 because she had been deprived of her daughter's financial assistance, by reason of the howling of the howler.

The girl was an operator at the west end exchange in this city. As such, it is alleged that she was compelled to wear the usual receiver with a metal band, bound about her head.

In the exchange in this city. As such, it is alleged that she was compelled to wear the usual receiver with a metal band, bound about her head.

It is alleged that one day last April, "85," the repair-department number, came upon Miss Galbraith's switchboard.

She plugged in, and asked for the number. Instead of receiving a reply, it is alleged, that "85" turned on the "howler" or "howler."

This howler is a machine which makes a terrible screaming noise. It is used to attract the attention of people who have left down their phones from the hook.

The girl claims that she got the full force of this fearful noise directly in her ear. For a moment it almost paralyzed her, and she was unable to tear the receiver from her head.

In the meantime, "85," getting no answer, kept the buzzer on full tilt. The girl was so frightened that she fled from the board by the chief operator in a half-unconscious condition.

Mrs. Galbraith claims that the girl's nervous system has been permanently injured; also her ear drum.

The mother's claim against the company is based on the fact that Miss Fawn was drawing a salary of \$35 and was alleged to have her salary increased to \$35.

## OIL MEN SUE.

## CHARGED WITH SHOOTING.

Alleged highlander operations on the part of rich oil men have made the text for a renewal of the big damage suit brought by George P. Cornell against Joseph Chandler, Sam P. Dunlop, and others.

Many citizens complain bitterly because the undertaking firms have begun to move into the residence section. Recently the Friday Morning Club was able to prevent the erection of an undertaking parlor on the adjoining lot only by paying \$10,000 for the property.

The Committee on Legislation will consider a petition asking that a district be fixed.

Freight "cow hells" are not satisfactory to some property owners, and a request that the lines be changed will be considered this morning.

## Object to Substation.

A protest against the proposed erection of a substation at Ocean View avenue and the corner of the Los Angeles Railway Company for transforming an alternating electric current into a direct current.

The objection of citizens to the proposed substation has already been fully reported. It is apparent from the written protest that the residents of this fashionable section have a misconception of the nature of the building. Officials of the street railway company assert that no power is to be generated in the building, and that there will be no smoke stacks and no smoke. They say that an ornate building will be erected, and that there will be no noise or odor to which any one can make objections.

Nevertheless the signers of the petition insist that the construction of a "power-house or substation" will stop improvements and be of great injury to their property. The petitioners claim that the Los Angeles-Pacific company is to erect the "power-house," but the Los Angeles Railway Company is the one interested.

## Young Had a Permit.

Architect R. B. Young, who is supervising the erection of a building at the southeast corner of Seventh and Broadway for J. B. Lankershim, says that the misunderstandings between himself and Street Superintendent Warden concerning building material on those streets arose from the peculiar wording of a permit granted by one of the deputies of former Street Superintendent McGuire. This permit, which has been renewed from time to time, reads "at the corner of the Seventh and Broadway" and is interpreted by the architect to mean that building material may be placed both on Seventh street and Broadway. Superintendent Warden maintains that neither street should be blocked prior to the completion of the cellar, and that only one street at the most can be used. Architect Young says that Contractor Charles Stansbury has been delayed in the work of excavation by the rains, which has caused a congestion of building material not contemplated. To avoid any further trouble over the matter all the building material was removed from Broadway early yesterday morning and the bricks on the Seventh-street side were piled back of the line decreed by the Street Superintendent.

## WHEELMAN INJURED.

Thrown in Front of an Electric Car at Twelfth Street Yesterday—May Yet Lose His Life.

A young man named Leslie Pitcher, who resides with his mother at No. 218 West Washington street, was thrown from his wheel in front of a Washington-street car, at Twelfth and Figueroa streets, yesterday, and dangerously injured.

He was riding between the tracks, when his wheel struck some obstruction and threw him in front of the car, but the fender saved him from being crushed under the wheels.

He was taken to an unconscious condition to the Receiving Hospital, bleeding from wounds on his head and face. After his wounds were dressed, he was removed to St. Agnes Hospital, where at a late hour last night, he still lay in a semi-conscious condition. He is thought to be nourishment, and it is thought his skull is not fractured, and the physicians have hopes of his recovery.

He was employed in the barber shop of Pitcher Bros. on South Spring street.

He was taken to an unconscious condition to the Receiving Hospital, bleeding from wounds on his head and face. After his wounds were dressed, he was removed to St. Agnes Hospital, where at a late hour last night, he still lay in a semi-conscious condition. He is thought to be nourishment, and it is thought his skull is not fractured, and the physicians have hopes of his recovery.

He was employed in the barber shop of Pitcher Bros. on South Spring street.

## AT THE COURT HOUSE.

## BUZZ OF "HOWLER" IN HELLO GIRL'S EAR.

## OPERATOR BRINGS SUIT AGAINST TELEPHONE COMPANY.

Rich Oil Men Sued for Damages by Man Whose Claim They are Alleged to Have Jumped—Says They Shot Holes in Him.

Ungratified "85," who turned the "howler" into the sea-shell of Miss Fawn, the hello girl, has brought down two damage suits tumbling in a heap upon the telephone company.

Yesterday, Miss Fawn's mama, Mrs. Cassie E. Galbraith, began one damage suit for \$10,000 for what happened to the ear of Miss Fawn, and another for \$25 because she had been deprived of her daughter's financial assistance, by reason of the howling of the howler.

The girl was an operator at the west end exchange in this city. As such, it is alleged that she was compelled to wear the usual receiver with a metal band, bound about her head.

In the exchange in this city. As such, it is alleged that she was compelled to wear the usual receiver with a metal band, bound about her head.

It is alleged that one day last April, "85," the repair-department number, came upon Miss Galbraith's switchboard.

She plugged in, and asked for the number. Instead of receiving a reply, it is alleged, that "85" turned on the "howler" or "howler."

This howler is a machine which makes a terrible screaming noise. It is used to attract the attention of people who have left down their phones from the hook.

The girl claims that she got the full force of this fearful noise directly in her ear. For a moment it almost paralyzed her, and she was unable to tear the receiver from her head.

In the meantime, "85," getting no answer, kept the buzzer on full tilt. The girl was so frightened that she fled from the board by the chief operator in a half-unconscious condition.

Mrs. Galbraith claims that the girl's nervous system has been permanently injured; also her ear drum.

The mother's claim against the company is based on the fact that Miss Fawn was drawing a salary of \$35 and was alleged to have her salary increased to \$35.

## OIL MEN SUE.

## CHARGED WITH SHOOTING.

Alleged highlander operations on the part of rich oil men have made the text for a renewal of the big damage suit brought by George P. Cornell against Joseph Chandler, Sam P. Dunlop, and others.

Many citizens complain bitterly because the undertaking firms have begun to move into the residence section. Recently the Friday Morning Club was able to prevent the erection of an undertaking parlor on the adjoining lot only by paying \$10,000 for the property.

The Committee on Legislation will consider a petition asking that a district be fixed.

Freight "cow hells" are not satisfactory to some property owners, and a request that the lines be changed will be considered this morning.

## Object to Substation.

A protest against the proposed erection of a substation at Ocean View avenue and the corner of the Los Angeles Railway Company for transforming an alternating electric current into a direct current.

The objection of citizens to the proposed substation has already been fully reported. It is apparent from the written protest that the residents of this fashionable section have a misconception of the nature of the building. Officials of the street railway company assert that no power is to be generated in the building, and that there will be no smoke stacks and no smoke. They say that an ornate building will be erected, and that there will be no noise or odor to which any one can make objections.

Nevertheless the signers of the petition insist that the construction of a "power-house or substation" will stop improvements and be of great injury to their property. The petitioners claim that the Los Angeles-Pacific company is to erect the "power-house," but the Los Angeles Railway Company is the one interested.

## Young Had a Permit.

Architect R. B. Young, who is supervising the erection of a building at the southeast corner of Seventh and Broadway for J. B. Lankershim, says that the misunderstandings between himself and Street Superintendent Warden concerning building material on those streets arose from the peculiar wording of a permit granted by one of the deputies of former Street Superintendent McGuire. This permit, which has been renewed from time to time, reads "at the corner of the Seventh and Broadway" and is interpreted by the architect to mean that building material may be placed both on Seventh street and Broadway. Superintendent Warden maintains that neither street should be blocked prior to the completion of the cellar, and that only one street at the most can be used. Architect Young says that Contractor Charles Stansbury has been delayed in the work of excavation by the rains, which has caused a congestion of building material not contemplated. To avoid any further trouble over the matter all the building material was removed from Broadway early yesterday morning and the bricks on the Seventh-street side were piled back of the line decreed by the Street Superintendent.

## WHEELMAN INJURED.

Thrown in Front of an Electric Car at Twelfth Street Yesterday—May Yet Lose His Life.

A young man named Leslie Pitcher, who resides with his mother at No. 218 West Washington street, was thrown from his wheel in front of a Washington-street car, at Twelfth and Figueroa streets, yesterday, and dangerously injured.

He was riding between the tracks, when his wheel struck some obstruction and threw him in front of the car, but the fender saved him from being crushed under the wheels.

He was taken to an unconscious condition to the Receiving Hospital, bleeding from wounds on his head and face. After his wounds were dressed, he was removed to St. Agnes Hospital, where at a late hour last night, he still lay in a semi-conscious condition. He is thought to be nourishment, and it is thought his skull is not fractured, and the physicians have hopes of his recovery.

## THE TIMES "ANSWERS BY EXPERTS" SERIES.

COPYRIGHT, 1902, BY JOSEPH B. BOWLES.

### How to Remedy Defective "Bones."

#### IMPAIR HEALTH.

DEFECTS IN THE BONES OF THE HUMAN RACE ARE SUBJECT TO REMEDY. THE DEFECTS OF THE BONES OF THE HUMAN RACE ARE SUBJECT TO REMEDY. THE DEFECTS OF THE BONES OF THE HUMAN RACE ARE SUBJECT TO REMEDY.

#### W. R. C. LATSON, M.D.

People who suffer from these defects may be divided into three classes: the abnormally thin, the fat and the athletic. The athlete is seldom erect, and is the most difficult subject of all to correct, because in his case the displaced structures are held in position by rigid and abnormally large muscles.

#### IMPAIR YOUNG WOMEN.

When the spine curves forward and the chest is pressed against the shoulder blades, the chest and outward, and the

and protruding collar bones be remedied.

They can be remedied in practically every case by the systematic practice of proper gymnastics. Furthermore, the cure is less difficult than would be supposed. It requires some perseverance—but is an interesting task. What can be more interesting than to watch oneself grow and develop under one's own efforts?

People who suffer from these defects may be divided into three classes: the abnormally thin, the fat and the athletic. The athlete is seldom erect, and is the most difficult subject of all to correct, because in his case the displaced structures are held in position by rigid and abnormally large muscles.

When the spine curves forward and the chest is pressed against the shoulder blades, the chest and outward, and the

are again in position. Then exhale breath gently and repeat, sweeping the arms around in a wide circle as far forward, upward, backward and downward as possible.

These four exercises are fundamental. They give the positions essential to proper placement of these structures, the displacement of which produces flaring shoulder blades and protruding collar bones.

W. R. C. LATSON.

Some humorous experiences of his boyhood are related in an article by United States Senator William H. Mason to appear in The Times tomorrow.

#### WOMEN'S CLUBS.

Ruskin Art Club.

"Early Italian Sculptors" was the subject before the Ruskin Art Club yesterday, Mrs. J. D. Gibbs and Mrs. G. L. Hutchinson being in charge of the lesson.

The first paper was presented by Mrs. D. K. Edwards, who spoke at length of the work of Ghiberti and Andrea Pisano, and compared in detail and spirit of execution, the two gates of the Florentine Baptistery, the work of the former, with the one previously executed by Pisano. Mrs. W. E. Dunn's paper was an exhaustive analysis of the genius and greatness of Donatello, the story being accentuated by details of the statues and exterior of the Or San Michele in Florence, after which the work of Donatello was compared with that of Ghiberti.

Miss Lethia Lewis spoke interestingly of her own personal observations and recollections of the works of these men, as seen during a visit to Italy. Mrs. Morris Albree gave a brief account of the Roscellini, speaking especially of the portrait of Cardinal Poggio, at San Miniato, the work of Antonio Roscellini.

Mrs. James Koye gave an account of the Della Robbia, and plaster casts of several works of Luca della Robbia, were shown, one of which was presented to the club yesterday morning by Mrs. J. D. Gibbs.

Mrs. W. H. Housh presented a terra cotta reproduction of "A Bambino" by Andrea Della Robbia.

Mrs. W. H. Housh concluded the morning's programme, by a brief talk on the work of Verrocchio, distinguished especially for equestrian portrait work.

#### Child Study.

The Tenth-street Child Study Circle had an attendance of forty-eight at yesterday's meeting. The subject for the fifteen minutes' experience meeting was "What Shall Our Children Read?"

After which Rev. George A. Hough delivered an address on the "Moral Training of Children." Mrs. McBride gave a whistling solo.

At the Stanton-avenue Circle Mrs. W. T. Brown read a paper on the "Grace of Speech." After the meeting a reception was held by the circle for the teachers recently appointed to the Stanton-avenue school.

Mr. X. K. K. of the Sloyd department for the city, spoke on "Modern Education," at the Thirtieth-street school circle yesterday. His words were met with enthusiastic reception, and were followed by discussion on points of interest. An interesting musical programme was also a feature of the afternoon.

Santa Monica Parliamentarians.

A parliamentary class, with Mrs. J. A. Cogswell of Los Angeles as leader, has been organized at Santa Monica. Fifteen members have been enrolled. The class meets at the home of Mrs. Nourse on Second street, on alternate Wednesday afternoons.

SAN DIEGO HARBOR.

The depth of water at the entrance of San Diego Harbor at mean low tide is 21½ feet. The bar upon which this measurement is made is of sand. It is by the safest harbor on the Pacific Coast. The largest ship which floats cannot cross the bar. The rise of the tide on the bar is six feet. A contract has been awarded for dredging which calls for a depth on the bar of 28 feet at mean low tide, while the present depth of the chief of engineers in the employ of the government the completion of the jetty, from the west shore of North Island, will develop a current which establishes a depth at mean low water on the bar of at least thirty feet.

A GREAT COMPANY.

In the twenty-seventh annual statement of the Prudential Insurance Company of America, the figures show one of the most rapid developments ever known in the insurance business.

In 1878 the Prudential started as the pioneer of industrial insurance in this country. In 1878 it had assets of \$2,322,400 and insurance in force of \$1,000,000. During the year just closed, it increased its business by over \$108,000, bringing the total assets of the Prudential Insurance Company to \$2,430,402. During the year just closed, it increased its business by over \$108,000, bringing the total assets of the Prudential Insurance Company to \$2,430,402.

Rev. Hugh K. Walker yesterday morning gave an address, opening the work of the second semester.

At 10 o'clock President Guy W. Wadsworth began the service, and introduced the speaker, whose theme was advising students to be satisfied with nothing save their best efforts. After the address the daily schedule was run, allowing the teachers to assign the lessons.

THE AETNA LIFE.

The Aetna Life Insurance Company of Hartford, Ct., publishes in another column its fifty-third annual statement. This shows that the business done in 1902 was one of noteworthy growth in every direction, and the resulting big figures put the Aetna Life as the leader among the great life insurance companies of New England.

DERBY (Ct.) Feb. 11.—The new blood-poison remedy, formalin, has been used with success in Bristol, Ct., in the case of Mrs. Napoleon Dube, when apparently she was dying. After the birth of a child, Mrs. Dube was attacked by blood poisoning.

SWEDISH CONFERENCE.

The Swedish Lutheran Conference of California, began its annual meeting in the Swedish Lutheran Church corner of Seventeenth and Hope streets, last night.

The opening sermon was preached by Rev. Carl Hattis of San Francisco, president of the conference. The first business session will be held at 9 o'clock this morning. This evening an anniversary service will be held, at which Rev. A. M. Le Veau of San José will speak, and the pastor, Rev. J. A. Edlund, will give a history of the church.

The meetings will continue, day and evening, until Sunday, and the new church, in which the meetings are being held, will be dedicated at 3 o'clock Sunday afternoon.

Gen. F. B. Hutchinson of Rochester, N. Y., was elected Commander-in-Chief. W. H. Keepers of Portsmouth, N. H., Deputy Commander-in-Chief.

FORMALIN SAVES A LIFE.

## Men's Diseases.

DR. O. C. JOSLEN  
The Leading Specialist

For Sixteen Years at the Head of His Profession

### Live

Yes! LIVE a life that is worth living! Live it fully. Others do—and why not you? You say you have little hope left. You have tried to get cured but have failed.

### All

Yes! ALL men can be cured who will act sensibly. "Weakness," "Varicocele," "Blood-poisoning," "Stricture," and every other form of depleted manhood can be restored quickly.

### Your

Yes! YOUR health can be restored. Prematureness, loss of power and all kidney and bladder diseases readily give way to sensible treatment. I give you that.

### Years

Yes! YEARS have been spent in perfecting the necessary remedies to make ideal men out of weaklings, but the fact is an accomplished one at last. You get cured to stay cured.

### A Man

Yes! A MAN once more—that is what you can be. My treatment is the result of years of study devoted to men's diseases alone. My treatment cures permanently.

There is no charge whatever for consultation by mail or in person. The whole of your correspondence returned to you on request. My copyrighted pamphlet, "Live All Your Years a Man," gladly mailed to you. No curable case has been presented in fifteen years on which I have failed.

I am always willing to wait for my fee until cure is effected.

Dr. O. C. JOSLEN

Third and Main Sts.

## Note Why

Many Are Interested in My Methods.

The Right Treatment Personally Applied

### THE RIGHT WAY.

I'm Always Willing to Wait for My Fee Until Cure is Effected.

#### Stricture.

My "Exact Cause" treatment removes the last particle of obstruction and renders the canal healthy, free and easy. The causation is removed without pain, free from cutting or caustic remedies. Ten to fifteen days is generally sufficient for the most aggravated cases.

Functional Decline.

Termed Weakness by Some. The success I have had in restoring functional derangement by treating the "Exact Cause" has been a great surprise to many who have met with failure in former treatment. It is the right treatment applied the right way that brings the satisfactory results. By my direct method all inflammation is removed and free healthy circulation is established.

#### Varicocele.

Cured 4 to 6 Days. Many men suffer from varicocele and have many times been treated without satisfactory results. I want to say to all such that my "EXACT CAUSE" treatment personally applied will cure you in 4 to 6 days, and the cure will be permanent.

Contracted Diseases.

To not partially cure these diseases is worse than no treatment at all. The chronic stage is sure to follow, and complications, such as ulcers, stricture, prostatic inflammation and bladder trouble is generally the result. Be sure your cure is thorough. With my method, which is the most cleanly and healing, one week to ten days is sufficient.

Urthral Obstruction.

My "Exact Cause" treatment removes the last particle of obstruction and renders the canal healthy, free and easy. The causation is removed without pain, free from cutting or caustic remedies. Ten to fifteen days is generally sufficient for the most aggravated cases.

Functional Decline.

Functional Decline.

Termed Weakness by Some. The success I have had in restoring functional derangement by treating the "Exact Cause" has been a great surprise to many who have met with failure in former treatment. It is the right treatment applied the right way that brings the satisfactory results. By my direct method all inflammation is removed and free healthy circulation is established.

Urthral Obstruction.

My "Exact Cause" treatment removes the last particle of obstruction and renders the canal healthy, free and easy. The causation is removed without pain, free from cutting or caustic remedies. Ten to fifteen days is generally sufficient for the most aggravated cases.

## SCHOOL FOR HOUSEWIVES--By Marion Harland

## The Parents' Corner

WOULD you kindly tell me what are the duties of a godmother? I am deeply embarrassed because of my ignorance.

A CONSTANT READER.

I am glad of the opportunity to answer this question. The custom of "standing godmother" for the child of a friend has become so much a matter of form and compliment that the primal significance of the ceremony and the solemnity of the obligation assumed are seldom considered.

Thus runs the section enjoining the appointment of sponsors for the infant:

"There shall be for every male child to be baptized (when they can be had) two godfathers and one godmother; and for every female, one godfather and two godmothers; and parents shall be admitted as sponsors, if it is desired."

—Book of Common Prayer, Protestant Episcopal Church.

The parents are always sponsors ex-officio; that is, by virtue of their office. Their admission to the list of nominal godparents is the idyllic form.

One branch of the Church Universal sometimes speaks of sponsors as "gossips." This sends us back to the derivation of a much-abused and fearfully perverted word. It was in early Anglo-Saxon "Godebið" — akin to or a friend of God. Without passing to dwell upon the desecration of the once-honorable title, we see in the original sense of the appellation a direct reference to the solemn duty of gossip or godparent. A godmother is one that engages to see that the child offered for baptism is brought up to be a Christian. Her office as "God's friend" engages this. She who accepts the place lightly — goes through the form of responding to the conventional questions asked by the officiating clergyman, makes the conventional gift of silver ring or other token of goodwill and dismisses the matter from her mind as a sort of society episode — is utterly unfit to take upon herself the holy name of "God-mother."

I can offer no more decisive proof of the truth of what I say than the shock with which this very plain speaking will be read by nine out of ten people who are sufficiently interested in the matter to read it at all. The idea that in accepting the honor conferred by a friend of acting as godmother for a young immortal one makes oneself responsible for that child's spiritual education is novel and not pleasing.

If I have answered your query more seriously than you anticipated, I do not regret it. I prefer to think that the "deep embarrassment" of which you speak betokens heart-searchings of your own and consciousness that something is involved in the sponsorial relation beyond the popular misconception of it.

TWO weeks ago it was my disagreeable duty to speak more severely than is my wont in this Corner of the debate in a daughter's mind as to her duty to a fond, indulgent father, as opposed to her inclination to elope with a young man of 21. The whole affair was clandestine. The father had no inkling of courtship or projected elopement, trusting his only child lovingly and entirely. The girl — a mere child of 17 — asked me if she were doing a "sensible thing" to think of marriage in the circumstances, and I told her just what I thought.

The problem that confronts me to-day is utterly different, as the reader will see.

I am writing to you because I need advice, and I am sure you will give such advice wisely and to the best of your ability.

## RECIPES

SPRINGERLES. (By Request.)

Beat four eggs very light, yolks and whites separately. Sift two cups of flour twice with one even teaspoonful of baking powder and a saltspoonful of salt. Grate the rind of a lemon fine and mix well with two cupfuls of powdered sugar.

Now add the sugar and lemon to the beaten yolks and whip smooth and light before adding the prepared flour, a handful at a time, alternately with great teaspoonfuls of the stiffened whites.

Work well, set on the ice for an hour, roll out into a sheet less than a quarter of an inch thick; cut into shapes with a mould, dust lightly with powdered sugar and bake.

OVEN COCKTAILS. (By Request.)

Mix and beat together a tablespoonful each of good, ripe tomato catsup and of strained lemon juice, seven drops of Tabasco sauce, half a teaspoonful of Harvey's sauce, a generous pinch of Hungarian sweet pepper (paprika) and the same of salt.

Have ready in small glasses thirty small oysters which have been in the ice in glasses for one hour. Divide among them the sauce, which should also have been set in the ice until very cold. Put five oysters in each glass.

There is a young man in our town whom I love very much. I feel sure I cannot do without him through life. My father objects strongly to my having anything to do with him, and for no good reason whatever that I can see. My lover is a straightforward young man, who does not smoke, drink or gamble, and is altogether a "nice" man. Now, what do you think best for me — shall I cling to him (remember I love him so much) or shall I do as my father wishes? I must also tell you, although it is a very painful subject, my father is not at all kind to me, and not at all as a father should be. He scolds me and just makes my life miserable. I cannot tell you all — sometimes feel as if I would rather be dead than live as I have been doing. The reason he picks at me all the time is because, he says, I am "pretty, and have no business trying to make myself look nice." He says "it is only a bold, bad girl who will do so."

Please advise me and tell me what I shall do. Shall I leave home? He always tells me to go.

BROKEN-HEARTED.

There is nothing in the assumption of the parental relation that makes one infallible. Fathers as often sin against children as children against fathers. I have men in mind whose grown children do not like to speak or to think of the influence their fathers had upon their early life — fathers who are reputable Christians and valuable citizens; who could look you honestly in the face and assert that they have tried prayerfully to do their duty all through life in the station to which God has called them.

A fine young fellow startled me the other day by saying suddenly, after talking long and fondly of his mother, who was my early friend: "I do not know my father. I have never known him. I shall never know him. My mother did her best to span the gulf between him and his children, but even her love and tact could not do it. It used to pain me. I have ceased to care now. With expectation the desire shall fail."

I have a pleasant society acquaintance with this particular father. He is a church official of high character, genial in manner, open-handed to the poor, just in business. He has six living children, and had never considered it worth his while to know any one of them intimately. That his four sons have not gone to the devil is not because of his precepts or influence. Like many another father, the cardinal tenet in his code of home government is training, and the very backbone of training is repression. Children must be kept under as rigidly as St. Paul kept his bodily appetites in subjection. If any memory of his own hot-blooded, light-headed youth has outlived the years of labor and drill that have taught him life's realities, it is a dim reminiscence of boyish escapades, to foolish and purposeless in the man's eyes that all the parent love within him urges him to keep his children from the like pitfalls. Yet this man has, in one sense, lived for his children. Down in the depths of his heart he loves them; he grudges them nothing which he believes to be for their real good.

One of his daughters told me, in a moment of unguarded bitterness, that she could not recollect that her father had ever kissed her, except when she went abroad to be absent for a year. So profound was the impression made by the caress that she locked herself in her stateroom and cried until out of sight of land, fully convinced that she would never see him again — or home. Some dread premonition of shipwreck and death must have moved him to the affectionate farewell. When she returned at the end of the year he met her on the wharf with a handshake and a careless (apparently) greeting: "Well, Mary! Here you are again! Had a pleasant voyage?"

If we may believe one-half of what the girl writes who believes herself to be "broken-hearted" because her father discourages her lover, and has nothing but hard words for herself, her parent is made of the stern stuff I have described. If she were a boy she would run away from home. This is the domestic governmental policy that fills reformatories with vagrants, furnishes merchant vessels with cabin boys, and keeps up the average tenancy of States prisons.

A good man, charitable in judgment and temperate in speech, once said to me: "There is one text I could never appreciate as comforting and true to life, although many people quote it feelingly: 'Like as a father pitieth his children!' My father never pitied me in my boyish troubles, or said one word of praise to me in my boyish struggles against the world, the flesh and the devil. I shudder to think what I would have become but for my mother. And mine is not a singular experience."

"What can I do?" this girl cries to me — a stranger. She may be

AMERICAN GIRL

NUMBER FIVE

This is the Fifth of a Series of Ten American Girls Drawn by the Famous Artist Malcolm Strasse. One Will Appear on This Page Each Week Until the Series is Complete.

vain and giddy, headstrong and impulsive. Seeing which, the father, with a destitution of tact that may be ranked as a crime, loads her with epithets any decent man should be ashamed to apply to a virtuous daughter. Is he blind that he cannot comprehend how surely he is driving her into the arms of the man he has forbidden the house?

What can she do but submit to parental tyranny with saintly patience until her lover can lawfully release her? Is a child, under the conditions here detailed, bound by nature and by religion to "honor her father?" What does the constituency say?

The application of my lay sermon is made in a few words: "Fathers, provoke not your children, that they

be not discouraged." Oh, wise and shrewd and tender widower of Tarsus! how much far-seeing wisdom and loving discussion is contained in that last word! "Discouraged" in the good they might have attempted to do; "discouraged" in the hope of ever winning the father's love and the father's confidence. That was the beginning of the downward course.

## Housewife's Exchange

I ENJOY the Housewife's Exchange, as I am a young housewife myself. I have never written to you before, but as every little seems to help me, perhaps my little mite would help some other of the sisters.

I think that the way I make my comfortables for winter is the easiest and best I have tried. I sew the material all up like a pillowcase, with only one end open, and that not hemmed. Then I lay that on the dining table or carpet — whichever is most convenient — turned wrong side up. Next I take my bale of cotton and lay on even, then pin cotton to each corner and start at the open end and roll and roll until the cotton is inside. This makes it nice and even. Then I sew up the open end of the comfortable, lay on table and proceed to tie and knot. The beauty of making comfortables in this way is that they can be taken off by untying them, as the cotton then lies in shape, and is easily rolled in and retied. My comfortables are all of light shades of cheesecloth, and when I take them off to wash, if they fade I just dye them over in the original color with a good dye, and they will last until worn out without losing their delicate colors. I can easily complete a comfortable in two and a half hours.

Would some member please send me a good, tried nut cake recipe, and favor a young housewife!

Did any of the members ever try making rhubarb jelly? I had just lovely success with mine. I took half rhubarb and half garden beets, washed clean and peeled. Put them on with a little hot water, and cook until soft, rub through a colander and they through a jelly bag. Proceed as for apple jelly, and you will have something nice. My jelly was just like liver; it was so tender, and the beets make it "jelly" and make a nice pinkish color.

MRS. J. L. R.

Our far Western members are particularly affluent in novelties. This letter from Colorado is a fresh proof of their energetic originality.

May I ask "Mrs. J. L. R." if the addition of beet sugar to the rhubarb does not impart a rather insipid sweetness to the jelly? Or is there enough acid in the rhubarb to counteract this? The recipe is new, and we have her word for it that the product is satisfactory.

A recipe for nut cake will be found in the recipe column. It is my own, and has been tested by many years' usage.

WOULD you kindly suggest a plan or menu for an informal oyster supper to be served to ten gentlemen, all of whom are "heartily eaters?"

Please give recipe for making an oyster cocktail.

I am an interested reader of all your letters and recipes. I try many of the recipes and find them very satisfactory.

Begin with oyster cocktails. (See Recipe Column.) Follow with stewed oysters. Send around crackers and lemon with these. Clear the table and serve fried oysters garnished with sliced lemon and watercress. Pass with this course brown bread, cut thin and buttered, and, if you like, potatoes scalloped, or a la Parisienne, with white sauce poured over them. Now, vary the sameness of the oyster menu by broiled squabs on toast, accompanied by lettuce salad with French dressing. Serve ice cream for sweets, and follow all with black coffee. If you cannot get squabs,

have broiled chicken with the salad.

I thank you for saying that my recipes are good. They have all been tested, unless when I say expressly that they are "contributed."

ANOTHER correspondent, who is a faithful reader as well,

says:

In answer to the query, "How should one make bedroom slippers?" I herewith enclose full directions for making the same:

Begin with a chain of sixteen stitches.

First row—make seven single crochet stitches into each follow-

ing chain, then three single crochets into the eighth stitch, and seven single crochets.

Second row—Plain, single crochet, picking up the last stitch from the rib.

Third row—Eight single crochets, three single crochets, ninth stitch, then eight single crochets.

Fourth row—Plain. Continue like this until you have seventeen ribs, the last row being twenty-four stitches on each side the centre stitch. Then work four stitches backward, and ward long enough for socks on at back.

ing chain, then three single crochets into the eighth stitch, and seven single crochets.

Second row—Plain, single crochet, picking up the last stitch from the rib.

Third row—Eight single crochets, three single crochets, ninth stitch, then eight single crochets.

Fourth row—Plain. Continue like this until you have seventeen ribs, the last row being twenty-four stitches on each side the centre stitch. Then work four stitches backward, and ward long enough for socks on at back.
